BULLETIN DETAILS

Product Group:	Lecky	
Model Affected:	Triton 0-3	
Effective Date: See Below	Serial No. Effective From:	23/02/2023
Bulletin Subject:	JCM Triton – New cover kit	

At Lecky we are dedicate to continuous development of our products based on user and customer experience. Therefore, from listening to customer feedback we are delighted to introduce a simpler and more cost-effective way of ordering JCM Triton fabric covers.

Previously, customers would order multiple part numbers when aiming to order a complete kit of covers making it time consuming to identify parts numbers and secondly costing customers more.

However, you are now able to order a complete set of JCM upholstery under one part number. This includes the following if required – JCM Backrest, seat cushion, hip, thigh, shoulder protractors, pommel, headrest, sacral pad and lateral covers. The covers provided will be based on the original build of the chair using the serial number provided.

These can be ordered with one of the part numbers below:

Model	Part Code	Description
Triton 0	97002250	Full Set of Covers Only
Triton 1-3	97002251	Full Set of Covers Only
Triton 0	97002253	Full Set of Covers and Foam
Triton 1-3	97002254	Full Set of Covers and Foam

How to order

You can request a quote for these parts by emailing south@leckey.com or calling 028 9260 0750 between the hours of 08:00 – 16:30.

When requesting your quote, you will need to provide the above part code and one of the following;

1. The Triton serial number, this will allow us to be able to identify the covers required.
2. If the Triton has had parts retro fitted after the chair has been built, these parts will need to be specified along with the specific size, fabric type and colour of these options to receive the correct covers.

For any queries on any of these updates please contact your local Product Specialist.
